1 Aim and Objectives

As part of the school's duty of care, all students are to be supervised at all times at school and at school related activities. No student is to be left unsupervised as long as he or she is in care of the school.

This policy identifies the supervision responsibilities of all staff at the school and identifies all the forms of supervision that staff should be aware of. The policy includes the protocols and guidelines, including risk management for students undertaking both on-site and off-site activities.

The school will ensure every effort is taken to protect all students and provide them with a safe and supportive environment.

It is the responsibility of the Principal to prepare a supervision roster and to ensure that it is adhered to. Although this task may at times be delegated to another staff member, the responsibility remains the Principal's. No staff member may alter this roster without obtaining written approval of the Principal.
